

# THE BLAIRMORE ENTERPRISE

VOL. XI NO. 15

BLAIRMORE, ALBERTA, THURSDAY, APRIL 22, 1920

\$2.00 YEARLY

## Merchandising

To the merchant a connection with a sound bank is invaluable. Our officers, through long experience, are in a position to give advice on any financial matter, such as credits, accounts, etc. Sound counsel on these points results in keeping a business in a healthy condition. An important convenience is the automatic routing obtained through the payment of accounts by check.

Resources exceed \$174,000,000

### Arbor Day May 4th

Proclamation has been issued, declaring that Tuesday, May 4th, shall be observed throughout the province as Arbor Day. If the present weather continues, we will institute a search party to find the earth. Geologists tell us it is somewhere beneath this snow.

### Slaughtering The Innocents

A Chinaman informed us today that all local Chinamen had started spring house cleaning, and that bad bugs were being slaughtered by the millions.

### Council Appoints Officials

At tonight's meeting of the town Council the following officials were appointed:  
Frank Wright—Secretary-Treasurer.

James M. Carter—Chief of Police, Collector, License and Sanitary Inspector, Fire Chief, etc.  
Dr. James Olivier—Medical Health Officer.  
Ritchie Patterson & Co.—Auditors.

Council decided that the office hours of the secretary-treasurer would in future be 9 to 12 noon, 1 to 5; Saturdays 9 to 1.

### Consolidated Company Insures Employees

The following insurance scheme has been adopted by the Consolidated Mining and Smelting Co., at Trail, B.C., for the benefit of families and dependents:  
Period of continuous service and amount of insurance is here given:  
Under six months, none.  
Six months and less than one year, \$500.  
One year and less than one year and six months, \$600.  
One year and six months and less than two years, \$700.  
Two years and less than two years and six months, \$800.  
Two years and six months and less than three years, \$900.  
Three years and less than three years and six months, \$1,000.  
Three years and six months and less than four years, \$1,100.  
Four years and less than four years and six months, \$1,200.  
Four years and six months and less than five years, \$1,300.  
Five years and less than five years and six months, \$1,400.  
Five years and six months and over, \$1,500.

Example—Any person who on April 15, 1920, has been continuously employed for two years, will be insured for \$800, and this amount will increase with continued service in accordance with the above scale. A person who has been continuously employed for five years and six months or more will be insured for \$1,500 without increase.

For the purpose of determining the length of service of an employee, any service prior to his enlistment in the army or navy during the war shall be added to the period of service since returning to our employ.

Any employee who has been transferred from one of our operations to another, will be given credit for the combined service, provided it has been continuous.

New employees will be entitled to benefits upon completion of six months of continuous service, with the exception for longer service shown in the above table.

On leaving the service of the company the insurance ceases. In the event of re-employment, an ex is classed as a new employee. An employee may transfer from one operation to another and maintain his accumulated insurance if arranged through the superintendent in charge.

In case of permanent or total disability before the age of 60 years, and amount of the insurance will be paid in one sum or over a period of years, to be determined by the conditions governing each individual case.

There is no cost to employees and no medical examination is required. This insurance is provided at the expense of The Consolidated Mining and Smelting Company of Canada, Limited. No deduction from wages or contributions of any kind by the employees will be required. It does not, in any manner take the place of or interfere with the benefits provided by the Workmen's Compensation Act or any other insurance the employee may have, but is in addition thereto.

### Cosmopolitan Hotel Changes Hands

As announced by us a couple of weeks ago, negotiations for the purchase of the Cosmopolitan hotel from the Fernie Brewery Co. and G. G. McCollum have been finalized, and the property now belongs to M. Belecky of Fernie. Mr. Belecky has had considerable experience in the hotel business and should make a real success of the venture here. Transfer of management was made this morning, and Mr. McCollum and family left by the west-bound train for Vancouver, where they hope to make their fortune.

### Arrested for Embezzlement

William Joyce, former secretary-treasurer of the Town of Blairmore and Blairmore School District, has been arrested at Drumheller, charged with embezzling upwards of \$1300. Joyce went overseas with the Pass battalion, and returned to Canada last year.

### Condemns Tariff

Declaring that the tariff makes the rich richer and the poor poorer, Dr. Michael Clark, member of parliament for Red Deer, in an address at a meeting of the Independent Labor party at Fernie, scored the tariff in strong fashion. Dr. Clark said the tariff repelled instead of attracting the best British immigrants, corrupted public life, lowered the national character and individual enterprise, and produced and perpetuated in quality of fortune. He attributed to the tariff Canada's small increase of population in the past eighteen years from six and a half millions to barely eight millions, notwithstanding natural increase, and said that the tariff had gone to the United States because it was comparatively a free trade country.

### Tender Farewell to Member Rosse

There was a "full" attendance at Tuesday night's meeting of The Pass Footleggers' Association, when the minutes of previous meeting were approved as read. A vote of thanks was accorded attorney-general Dick Smith for the splendid address delivered at a former meeting on the subject of "Ways and Means," as a result of which the members of the association are now practicing many new methods of litigation. Word was received at the meeting of the intention of Michel Rosse to leave the district, and a committee of five was sent out into the dark by the association to escort him to the train. A vote of thanks was accorded attorney-general Dick Smith for the splendid address delivered at a former meeting on the subject of "Ways and Means," as a result of which the members of the association are now practicing many new methods of litigation.

"To our well-beloved citizen, pattern-builder and swelled-head. We, your fellow bootleggers and inebriates feel that this time has arrived, when some tangible recognition of your services as a leader, an adviser and honorable exponent of the liquor traffic and its side-effects, should be tendered to you. We feel that to you, and not to the attorney-general's department, are we indebted for the glorious opportunity afforded us during the past few years to stock up our coffers and bank accounts at the expense of the wage-earners of this district and the deprivations and sacrifices of their unfortunate families. We pray that words fall us in our efforts to entangle you as a citizen. As a matter of fact, there is not a term in our vulgar vocabulary that would do justice to you. But, as you leave us, you may rest assured that as long as the powers that be are as lenient and patient with us as they have been during the past few years, we shall endeavor to carry on the business established by our predecessors and do all in our power to break the laws and householders of this country. May His Satanic Majesty, who through the years that have passed has prompted you and blessed your coffers, ever remain with you and finally kindle the flames that will ensure your mortal remains their well-earned rest."

Signed by sixty-three members of the Pass Blind-Fig Association: thirty-two from Blairmore, eight from Hillcrest, three from Frank, twenty from Coleman, one from Pasburg and nine from Bellevue.

## Canada and the United States

In these days of almost universal unrest, words of advice and warning are so frequently uttered and written that there is a grave danger of the public ear becoming dulled, and the old cliche repeating itself, and the cry of "wolf, wolf" so often sounded being disregarded when actual danger is imminent.

Nevertheless, at the risk of but adding to the alarms given, the writer of this column ventures to declare without equivocation of any kind that danger is threatening Canada, the British Empire, the United States, and, through these great English-speaking nations, is threatening the world.

A deliberate propaganda is being engineered throughout the English-speaking world, but more especially in the United States, to create and develop a feeling of antagonism, of suspicion, of hate, between the people of the United States and the people of the British Empire. And because Canada is British, and the next door neighbor of the United States, no stone is being left unturned to arouse an anti-American sentiment among people in this Dominion.

Traced to its source, this propaganda is the work of Germans and German sympathizers. Make no mistake about it. And the writer would say as a writer in McLean's magazine said recently: "Canadians, don't fall for it." Ignominiously defeated in the Great War; all her colonies lost to her, and with loss of territory in Europe; her shipping in the hands of her former enemies; her world trade destroyed; her money at a ruinous discount throughout the world; burdened with an enormous debt, and with discontent and rebellion seething at home, Germany is striving almost with desperation to retrieve in peace what she lost in war. Unless she can do so, unless she can gain a new footing in world trade and commerce, Germany's position is hopeless for generations to come.

How is she to even partially regain all that she has lost? She sees but one sure, certain and fairly swift method, and that is to drive a wedge of suspicion and hate between the British Empire and the United States. Accomplish this, and the way is open for Germany to again emerge as a power in the world.

In the United States, the game is being played for Germany by certain politicians of the ward type catering for the German-American and the Irish-American vote. The game is being played by the Hearst newspapers. It is being played by the Sinn Féiners, both in the United States and Ireland.

In turn, the anti-British outbreaks fomented by these classes in the United States are used in Canada and England, but especially in Canada, to arouse a feeling of hostility in this country towards Americans. Full use is made of the discount on English and Canadian money. Retaliatory action is urged against Hearst and other American interests. A policy of nagging and pin-pricking is being encouraged on both sides of the international boundary, not for the advantage of Canada or the advantage of the United States, but in order to

benefit Germany, the enemy of both. With a firm friendship cemented between Great Britain and the United States, it would, in the final analysis, matter little whether the League of Nations became a permanent institution or not, because united they can maintain the peace of the world; divided and suspicious of one another, no League of Nations could be effective. Upon Canada devolves an enormous responsibility. A former member of the Lloyd George Government said to the writer that great as had been Canada's contribution to victory in the war and glorious as was the position this Dominion had won for itself among the nations, its recent achievements and glory were small indeed compared with the opportunity for world service now thrust upon it. Canada, he said, was in fact, the hostage for the future peace of the world. Situated as this country is, a loyal and proud British Dominion, alongside the great English-speaking republic, its people had it in their power to bring about a unity in sentiment between the United States and the British Empire which alone could make permanent world-peace possible. On the other hand, Canadians had it equally in their power, by unwise and ill-considered action and the development of an anti-American sentiment to do irretrievable injury to a concord between the Empire and the Republic.

Canadians should be on their guard. They should not be led astray by the political scheming, and the pro-German propaganda, across the line. This twisting of the Lion's tail does not meet with the approval of the sound commonsense of the American people. It is the work of a noisy minority. Canadians can afford to treat it with contempt. Don't take it seriously. Don't retaliate in kind. Just laugh at it, and keep on striving to create an eternal friendship between the two great branches of the English-speaking family.

## France to Purchase Ships From Britain

England is Willing to Negotiate the Sale of Ships

Mr. Bignon, French Undersecretary for the Mercantile Marine, announces that he expects imminent and speedy results from his visit to London and his up-in-bride with British ministers respecting ships and coal.

The attitude of the British authorities was sympathetic and conciliatory, and they expressed surprise at the charge that England is resending more tonnage than she is justly entitled to at the expense of France.

Mr. Bignon points out that France cannot expect to receive a present of a fleet, but England is willing to negotiate the sale of ships. She had to consider her own position as a sea power, and, according to Mr. Bignon, France has reason to be grateful to her for her concessions.

## HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is not the child that is cross and peevish. Mothers if your children do not sleep well, if they are cross and cry a great deal give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthy sleep. They are absolutely guaranteed free from opiates and may be given to new-born babe with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Tea and Coffee Hurt Many People

If tea or coffee disagrees with you, make a ten days trial of

## INSTANT POSTUM

More healthful than tea or coffee. Costs less, and its flavor pleases.

Sold by Grocers Everywhere!

## A Fitting Response

Great Britain Claims Nothing More In Ireland Than The United States. Did the South put forward in this country "the same claim in exactly the same language as Jefferson Davis did" and that Great Britain claims nothing more in Ireland than the United States did in the South "and will stand for nothing less," he made a proper response to the Senate's recent middlebrow resolution in favor of the Sinn Féiners. It has never been difficult to put Congress on record in support of the schemes of insurrection, secession and independence on the part of other peoples, but for some reason or another such doctrines as applied to ourselves are particularly resented. — New York World.

## Minard's Liniment Relieves Neuralgia

What He Swept Master. Haven't you swept the shop out yet, John?  
Boy.—No sir.  
Master.—Then what on earth have you been doing?  
Boy.—Sweeping the dust out, sir!

## Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When taking the pills I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know they have helped me wonderfully as I have improved very much."

Price 25¢ a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## United States Imports From Alberta Increase

Value of Cattle Exported Amounts To Over Three Million Dollars For 1919

According to the report issued by the U. S. Customs at Calgary, S. C. Reat, the exports from the province of Alberta to the United States for 1919 show a large increase of approximately \$7,000,000 over the total declared exports for the previous year.

The total declared exports from the province for 1919 was valued at \$17,585,332, as compared with the total exports for 1918, valued at \$10,032,065. Of this total for 1919, \$10,994,387, was involved through the Calgary office; \$4,895,324 through the consular agency at Edmonton and \$1,695,621 through the consular agency at Lethbridge.

Cattle headed the list in the Calgary office with a value of \$3,853,131 in 1918. Hides came next with a value of \$677,919, being an increase of 100 per cent. over the previous year. In meat and meat products, there was a decrease of \$1,147,909. The export of wool shows a marked increase—from 12,261 pounds, valued at \$26,536 in 1918, to 243,756 pounds, valued at \$42,594, in 1919.

Since December 15, 1919, when the embargo in the United States on wheat was lifted, 143,343 bushels, valued at \$339,248 have been exported up to January 1, 1920. Cattle show a slight decrease in quantity and value amounting to only \$317,073. Butter shows an increase of over \$100,000, the total value of the export in 1919 being \$139,121.

The principal article exported from Edmonton was raw furs, valued at \$1,833,996, an increase of \$74,199 over 1918. "Ranking next in importance was the export of meat, valued at \$1,176,675. In 1918 the value of meat exported from Edmonton amounted to \$616,695. The value of cattle exported amounted to \$485,427, which in 1918 amounted to \$14,796.

Minard's Liniment Cures Burns, Etc.

When a man is down his enemies stop kicking him and his friends begin.

## British Columbia to Change Road Rules

Act to Change Rule of the Road Is Introduced in Legislature

Legislation to amend the highway Act to the extent of changing the rule of the road in British Columbia has been introduced in the Legislature by the government. At present the practice is to drive by the left. Under the new legislation the greater portion of the province would adopt the new rule in July next, but Vancouver Island and those sections of the mainland served by the British Columbia Electric Railway Company would be given until December 31, 1921, to effect the change. The reason for this is that the railway company will have extensive alterations to make in its track and cars, involving, according to its own officials, an expenditure of from \$700,000 to \$1,000,000. This money will eventually come out of the public, either through increased street car fares or else by taxation if the government elects to pay the bill.

The change in the rule of the road is to be effected on the ground that the right hand drive prevails practically throughout the North American continent. Tourists from the United States and other parts of Canada coming to British Columbia have in the past experienced difficulties because of the left hand drive in this province.

## Salmon Ship Sails For the Far North

Must Take Entire Season's Supply Of Food As Well As Clothes For Workers

San Francisco, California. — The Star of Russia is the first ship of the Alaska Packers to sail this spring for the far north. Each canner of that company is supplied by one of the famous 18 "star" ships, which are among the last of the old square-rigged vessels once so common in the Pacific. The ship must take an entire season's supply of food, fuel, and machinery, as well as clothes for the workers; as most of the canneries of the Alaska Packers are too far away from any dependable source of supply to permit replenishing their stores during the busy fish "run." At the cannery the ship becomes a combination of warehouse and store at which the cannery workers and native Indians supply their needs for the entire year. At the end of the season, the season's stock is loaded aboard and the ship again sets sail for the Golden Gate.

## DAD! YOUR HAIR IS FALLING FAST

"Danderine" Will Check That Ugly Dandruff and Stop Hair Coming Out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

Not Exactly A Triumph Arthur (bitterly).—I suppose you consider it a triumph to make a fool of me?

Joan (sweetly).—Oh, no! A triumph means accomplishing something that was very difficult.

## A Constipation Cure

A druggist says: "For nearly thirty years I have commended the Extract of Roots known as Mother Selig's Curative Syrup, for the radical cure of constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops three times daily. Get the Genuine, at druggists.

## His Medicine a Surer Shot

A doctor took it into his head to go rabbit hunting, and so he started out quite early on a beautiful morning, fully equipped for the sport. About 4 o'clock in the afternoon he returned, tired out and empty handed, telling his wife he hadn't killed a thing, whereupon she remarked, triumphantly:

"I told you so!" adding in the next breath, "If you had stayed at home and attended to your legitimate business you might have been more successful."

George Coupland, of Bellevue, has been granted permission by Mrs. Coupland to wear a smile for a few weeks, in consideration of a baby daughter presented to him.

Mrs. S. J. Lamey, wife of Manager Lamey, of the Union bank at Bellevue, is enjoying a three months' visit to her home in Ontario.

## The Bare-Neck Evil

Insufficient clothing about the necks and throats of women is causing increased goitre, we are told by Sir Jav. Cantile, London surgeon, writing in the Daily Mail. "Some time ago, in dealing with some of the cases, he divided the zones of temperature in evening dress, from above downward, into arctic, temperate and tropic. What was true of evening dress is now true of out-of-door dress, and even more so, for the chest and back are exposed to so great an extent that even decency is defied in many instances. He goes on:

"The effect of this upon the health of our young women (though this mode of dress is unfortunately not confined to them, for older women follow the evil example), and the possible detriment to health are daily upon our lips, although no one has set out in definite terms what these effects are.

"Passing over several of the consequences, such as the bursts of high temperature to which the underclothes are subjected, by the men or women, and other equally prominent symptoms, I would draw attention to a condition, which all must have noticed—the 'puffy necks' which affect so many of our young women to day.

"Of five hundred women on whom I made observations, with the help of those present at my lectures, no fewer than sixty-seven had their necks so 'puffy' that they were noticeable. The puffiness is due to enlargements of, or in the neighborhood of, the thyroid gland. 'A slight fullness in this region has from early Grecian times been looked upon by artists with a certain amount of favor; but an exaggeration is utterly condemned, associated as it is with the face pallor, puffy features, anaemia and flatness. Briefly, the condition is termed goitre, although true goitre has its specific cause.

"A true goiter is known in certain parts of the country, but it is to be noted and never has been a disease attributed to living in London. Yet today, in a certain form, it is plentiful; it has mostly made its appearance since bare necks and chests came into fashion, and as the years of this fashion increase so do the puffy and goitre-looking necks.

"The Parisian designers who determine the nature of women's dress have set an evil fashion, myogenic to a degree; but no railings of mothers, physiologists, or right-minded folk, are capable of preventing the damage the Parisian manikin has done and is doing to the young women of Europe."

## A Check on Swindling

The booming of wild-cat subdivisions invariably leads to elaborate schemes to bring "industries" with long payrolls and the artificial foundation of these industries usually bonused indirectly by tax exemptions and free use of municipal utilities, sooner or later, brings about desperate conditions in municipal financing, of which the outcome is the violation of all sound principles of taxation and the inevitable reaction on every kind of business as well as on the social conditions of the community.

We shall have more of these booms beginning in a year or two. The history of every western city illustrates the fact that booms come in cycles irrespective of the lessons in bitter experience. But some of the evils of past booms will be modified, at least, by the amendments to the act respecting subdivisions now before the legislature. This amendment requires the consent of the board of public utilities before subdivision plans can be registered; and the owners or agents of such properties must satisfy the board that the land is to be used for definite purposes within a reasonable time.

This should prevent some of the wild gambles based on speculative industrial development, several miles outside the limits of cities in such bad odor abroad several years ago. It will not prevent speculation, but it will go some distance to prevent out and out swindling.—Calgary Albertan.

New officers have arrived at Coleman to take charge of the Salvation Army work in this district.

Mrs. A. Evelyn Smith, of the Lethbridge Photo-art Gallery, has opened up for business at the rear of the Cosmopolitan hotel. First-class work guaranteed.

## 1919 Worst Year in Canada's History

There were more strikes, labor disputes and general industrial turmoil with consequent time lost in Canada during 1919 than in any other year in the country's history. This is revealed in a report compiled by the labor department at Ottawa and just issued.

Including eight carried over from 1918, there were a total of 288 strikes and lock-outs in Canada during 1919. The number of employees involved was 138,988 and the number of employees 1,015. The total number of working days lost was 3,042,180. The previous record in working days lost was in 1911, when the record stood at 2,046,650 days lost.

There were several outstanding strikes which contributed largely to the total time lost. Among those were the general sympathetic strikes in Winnipeg from May 15 to June 26, involving (according to labor department figures) 22,800 employees and a time loss of 924,562 working days; the strike of coal miners in district 18 from May 24 to the end of August, involving 6,360 employees and a time loss of 462,870 working days.

## Knowles' Hole Nuptials

The marriage of Percy Knowles, son of George Knowles, of Bellevue, to Miss Jessie Elizabeth Mink, of Birmingham, England, took place at Bellevue Methodist church on Wednesday afternoon, in the presence of a few friends. The bride was attended by Miss Floris Hallworth, while George Knowles, brother of the groom, acted as best man. Following the ceremony, which was performed by the Rev. Harry Peter, a wedding supper was served at the home of the groom's parents.

## The Heathen Irish and Scotch

In our issue of a couple of weeks ago we referred to the return of a Puse party from a visit to Scotland and a typographical error caused a sentence to read "from a visit to the land of the heathen," instead of "heathen." We very much regret the error, much as we know of Scotland.

Blairmore Enterprise.

Shades of John Knox: Doorn't the Blairmore man know that St. Columba came from Christian Scotland to convert the Irish heathen, and that many Canadian farmers have Scotch blood in their veins. Some of the others have Scotch whiskey in their systems whenever they can get it.—Strathmore Standard.

Yes, and we wish to inform our Strathmore friend that it's not a difficult problem to secure anything in the way of prohibited intoxicants in 'The Crown's Nest Pass, and that people who peddle the stuff make no bones about it. It may look to the outsider strange that the authorities are not wise to the game, but they really must be.

The mayor of the city of Winnipeg, who took such a prominent and aggressive stand against the "Red" element last year, has been threatened that if work is not provided for all workers he will be assassinated.

Last evening's meeting of the women of this district at the local Masonic hall was addressed by Mrs. D. R. Melvor, a member of the provincial executive and convener and organizer for the Women's Institutes of Alberta.

The first school opened in Canada in 1632.

## When Women Vote

He—Have you seen the latest provisions of the Income Tax law?

She—He asked. Are you familiar with the latest provisions of the Income Tax law?

He—Why not?—I'm asking you. Have you looked into the latest state and national candidates for election?

He—I'm afraid that—

She—Give me a brief summary of the Constitution of the United States and Washington's farewell address, and repeat the words of The Star Spangled Banner.

He—I cannot. I—

She—Do you know anything about local, state or national politics?

He—Not a thing.

She—Then I will quarry you, on one condition.

He—And that is—?

She—That you never learn about these things. I am compelled to do so, in order to take my place in the ranks of women voters. But one member of our family who knows about them will be enough.

In France during the war, the British Y.M.C.A. opened over 2000 different centres, the workers in France averaged 1500 at a time. 300 centres were continuously open at the bases and of the lines of communication, 280 were strung out along the battle-front of the five armies. Special work was done also for the Indian and Portuguese troops and for the Chinese labor corps.

We ought not to look back, unless it is to derive useful lessons from past errors and for the purpose of profiting by dear bought experience.

## Can You Beat It?

Another example of the unmerciful attitude of a few of Winnipeg's business people to the home papers who look for living at home and help in a hundred ways to keep them down alive, is the fact that the "Enterprise" while spending a few hours in making the most of the train, took out the printing supply side-line grip and shipped over \$100 worth of printing to other business men. One of these men is given over to The Advance every day in advertising and printing received are given, similar is in the hotel business and we have often sent him business. The first man is not a merchant but a business man with a shop on front street. Other orders were from merchants who expect the printers as well as all others to patronize them.—Can You Beat It?—Winnipeg Advance.

## Put it on Backwards

A prosperous farmer has gained the reputation of being the stingiest man in his town, and consequently is not a general favorite with his neighbors.

He owns an old horse which, to put it mildly, is very thin. As it is to make up for the lack of flesh on its body, however, the animal has a head many sizes too large. The other week he went to the expense of a new collar for the animal. A few minutes after the delivery the owner was back at the saddle with the collar.

"Don't you know nothing?" he blurted out. "You've made it too small! I can't get it over his head!"

"Over his head!" replied the saddler. "Man alive, it wasn't made to go over his head. Back him into it!"

Judgment is the power that revolutionizes the world. The better our judgment, the greater our success.

### DEHORNING ADDS VALUE

#### A New Zest in Canadian Cattle Campaign

A zest has entered into the campaign for dehorning Canadian cattle. The example of the most successful farmers is being copied by those quick to see the money-value of the idea.

Probably a quarter of a million dollars a year are lost to farmers by the non-practice of a simple dehorning process.

Live stock exchanges in Winnipeg, Toronto and Montreal especially encourage dehorning. Practically all the American native cattle, with which Canadian farmers in the west have to compete, have the advantage of being thus treated. They bring a larger return in dollars and cents.

In a circular by the Dominion government, farmers are told that they will benefit briefly for the following reasons:—1, better appearance of the cattle; 2, quieter, subdued nature, enabling fattening at less cost; 3, more cattle can be shipped in one car by rail, saving freight cost.

But it is when the animal is finally brought to slaughter that the value of dehorning is proved. Over 70,000 pounds of meat a year are actually reported as inspected Canadian packing plants alone as wasted through bruises in the flesh. Most of the bruises are caused by the animals' horns while in transit from the farm to the market and the abattoir.

That total represents the parts of meat utterly thrown away. There is a further and even greater loss. When a piece of meat is removed from a quarter of beef because of a bruise, the rest of the quarter or part of it has often to be sold at a cent and one-half or two cents a pound less—not because the meat is poor, but because that part has lost in appearance and sale value. Probably one in every five cattle bought on Canadian stock yards suffers from injury which could be prevented were dehorning commonly practiced. The packer, buyer necessarily takes the loss into account and the farmer who sells cattle takes the risk and the lower price.

A united effort is now being made by the Dominion and Provincial Departments of Agriculture, the live stock exchanges throughout Canada and the meat packers collectively, to get a better knowledge diffused among Canadian farmers of the real importance of dehorning.

No one has yet discovered how finely asbestos fibres can be split. A microscope magnifying 900 diameters revealed three that are estimated to be one-millionth of an inch thick.

He—"My view on bringing up a family—"

She—"Never mind your views. I'll bring up the family. You go and bring up the coal!"

## SHIP ALL YOUR MUSKRAT

COPYRIGHT, CANADA, 1934 BY A.B. SHUBERT, LIMITED

## SHUBERT WINNIPEG

A CANADIAN HOUSE, FOR CANADIAN FUR SHIPPERS

Help us supply our tremendous demand for MUSKRAT, MINK, COYOTE, and all other Furs from your district. "SHUBERT" will pay you the EXTREMELY HIGH PRICES quoted below:

	WINTER LARGE	WINTER MEDIUM	WINTER SMALL	WINTER VERY SMALL	WINTER VERY VERY SMALL
Spring	8.00 to 7.00	6.00 to 5.00	4.50 to 3.50	3.25 to 2.50	2.25 to 1.75

## Germans Prepare To Defeat More Red Intrigues

Berlin.—The government has succeeded in placing under arrest Major-General Baron Von Luttwitz, commander of the rebel forces in the Kapp revolt, the semi-official Wolff Bureau announces.

Paris.—The German government has decided to place guards around the government and other public buildings and has sent for 15 large tanks and 20 armored cars because of rumors of a new attempt to overthrow the government for the purpose of forming an alliance with Soviet Russia to declare war on France, according to advices from Berlin.

The Social-Democrats have issued an appeal, the advices add, calling upon adherents to register for defense of the republic against internal enemies, arms in hands.

Berlin.—Reports of continual reactionary intrigues are attracting great attention in the Berlin press.

The Tagblatt publishes an interview with Lord Kilmarock, British charge d'affaires, in which the latter is reported to have said:

"I am convinced that a new military attempt would provoke the greatest indignation in England and the British government would repudiate it decisively. Every chance Germany has of obtaining help by way of food, raw materials and credit, would be spoiled by any acts of violence."

## Peace Restored in Vladivostok

Tokio Announces Agreement Signed With Revolutionary Provisional Government

Tokio.—The war office announces that the provisional government in Vladivostok has signed an agreement accepting most of Japan's terms.

A war office communication says peace has virtually been restored in Vladivostok and that there were no casualties among the civil population. It adds that several minor engagements in neighboring towns were all stubbornly contested, but that all of them resulted in disarmament of the revolutionaries.

A semi-official communication says General Semenov's troops are sweeping out the Bolsheviks in the region directly south of Chita.

## Magazines May Be Suspended

New York.—Publishers of several periodicals of national circulation have decided to combine two issues in one in order to reduce the number of pages in each, because of paper shortage due to the railroad strike, it was announced. It was also announced that the leading magazines may have to suspend publication temporarily if conditions do not improve.

## Denikine Will go to England

London.—The war office has announced that General Denikine, former anti-Bolshevik leader in southwestern Russia, who had previously been reported as leaving Constantinople for Malta, will instead proceed to England.

## Strikers' Release Entirely Changed Policy of Ireland

London.—The release of the Irish prisoners was by direct order of General Sir Neville McCready, and marks the beginning of an entire change in the Irish policy, according to a prominently displayed statement in the Daily Mail.

When it became clear some time ago, says the paper, that the policy of repression was leading to dissatisfactions, the premier decided to change the policy, and, if necessary, get rid of men associated with the old regime. He suddenly and without warning told J. L. McPherson, chief secretary for Ireland, that he was to be moved to the pensions ministry, and appointed General McCready in command of the troops without consulting the Irish office. General McCready, adds the Mail, was instructed to inaugurate a new policy of conciliation and was given a free hand. In other words, he was to supersede the existing heads of the government in Ireland.

When General McCready arrived in Dublin, he ordered the release of the

## Charges Against Winnipeg Janitor

Offered to Let Apartment to Highest Bidder On A Bonus For Himself

Winnipeg.—Detective Inspector Smith, of the city police force, has sworn out information against C. Smith, janitor of the Bartella apartments, Home Street, as follows:

"Being an agent for apartment block known as the Bartella apartments situated on Home Street, in the city of Winnipeg, did corruptly agree to accept, or attempt to obtain from other persons for himself, a gift or consideration for showing a favor to such persons in relation to his principal affairs of business—to wit, the letting or subletting of apartments in said apartment block."

The outcome of this prosecution which is possibly the first of its kind in the city, will be watched with interest by numerous anxious home-seekers. He had offered to let an apartment to the highest bidder on a bonus to himself.

## Land for Irish Soldiers

Who Volunteered For Service At The Front in 1918

Dublin.—Government officials are negotiating for 1,000 acres of land which will be apportioned among Irishmen who volunteered for service at the front in 1918. Viscount Field Marshal French, lord-lieutenant of Ireland, promised in 1918 that land would be given to those who joined the colors, and in 1919 parliament passed a bill carrying the lord-lieutenant's promise into effect. To the present, however, only 71 men who took advantage of the offer, have been provided with homes.

The only land that can be taken under the law is that which is not subject to tenancies and it may be taken from landlords under compulsion. Recent governments have followed the policy of relieving congestion by distributing of land among small tenants, and these men are beginning to display apprehension lest their claims be postponed, preference being given those soldiers. Four thousand applications for holdings have been filed, and nearly six thousand soldiers have asked for cottages.

## Protest Against Transfer

Kingston, Ont.—The Kingston branch of the Army and Navy Veterans has passed a resolution protesting against the transferring of guards from the Edmonton penitentiary which is being closed up, to the Portsmouth penitentiary here.

## Civil Service Bonus

Ottawa.—Sir Henry Drayton, minister of finance, tabled in the house a supplementary estimate of \$12,500,000 for the civil service bonus during the financial year 1920-1921.

## Was Gun Sold to Germany

Ottawa.—Did Daniel D. Hennick, living in Logan, Ont., in 1910, offer the Canadian government gun patents of his own invention, and on no action being taken, did he sell them to the Imperial German government, is the information sought in a question before the house from A. L. Deslauriers, member for Champlain. The member also asked if Hennick is about to return to Canada to live.

## Quebec Wants More Revenue

Quebec.—In an effort to find more revenue to foot the city's growing expenditures, the Quebec city council is considering various plans of taxation. It is proposed to levy a 15 per cent tax on all business enterprises and also to pass the property valuation so as to value by a couple of millions the revenues of the administration.

## Regina, Sask.—A survey of Saskatchew

chewan by the provincial government at the request of the National Institution for the Blind reveals there are ninety blind persons in Saskatchewan.

The Mail assumes from Mr. Bonar Law's speech that he was not informed of the decision for the release of the prisoners and says that the peculiarity of his position is being discussed in political circles.

## Raids on Dublin

Many People Have Been Arrested in Connection With Murder Of Kells

Dublin.—The labor executive has removed the embargo paid except on bacon, butter and live pigs. It entirely prohibits the exportation of bacon and pigs and urges the cessation of butter shipments until the price falls to three shillings per pound.

Monaghan and Londonderry were the only Irish counties where an abandoned barracks was not burned Easter Saturday.

Recent raids in Dublin were more exhaustive and detailed than any since Easter week, 1916. The police theory is that the murderers of Kells were three in number and that they lived in the neighborhood which was searched and immediately arrested. Among the houses searched was the home of two of the released hunger strikers, the father and another relative of whom were arrested. Jacob's biscuit factory, a quarter of a mile from the scene of the killing, also was searched. Several men of the night shift were arrested.

## Bavaria Predicts War With France

And For That Reason Germany Should Remain Solid

Geneva.—The Munich Post, a socialist organ, has caused a sensation in Bavaria by publishing the report of a secret meeting of the Bavarian Junker Party, which was attended by most of the military officers. The meeting was presided over by Herr Von Schoch, president of the Patriotic League. The principle questions discussed related to the division of Germany into two parts and the proposed overtures to be made to France to join in an attack upon Prussia.

Captain Berthold, says the Munich Post, objected to the proposals, saying that the Bavarian generals would suffer the fate of Admiral Kolchak and General Denikine, the Russian anti-Bolshevik leaders. He added that another war with France was inevitable in the near future and for that reason Germany should remain solid. Several officers and politicians supported the view.

## Nominate Convicted Leaders

Labor Party Decided In Favor Of Men Who Figured In Sedition Charges

Winnipeg.—Annulling the nominations made a fortnight ago, the Winnipeg Branch of the Dominion Labor Party, at a meeting in the Labor Temple, decided in favor of the men who had figured in the sedition charges being nominated for the Winnipeg seats at the provincial elections in July.

These men are R. B. Russell, Rev. Wm. Ives, Add John Quinn, W. A. Pritchard, R. J. John, George Armstrong and R. E. Bray, who was convicted; John Farnell, who was imprisoned for seditious utterances; F. J. Dixon, M.L.A., who was charged with seditious libel and was acquitted; and J. S. Woodworth, who is facing a similar charge.

They will not all be the nominees of the Labor Party, however, as it was decided to confer with other working class organizations, such as the Socialist party, the Social Democratic party, and the Ex-soldiers' and Ex-sailors' party, with a view to these organizations naming their own particular candidates. The Labor party will confine its nominees to those of the men who are members of the party, Ivens, Woodworth and Dixon.

## Was Gun Sold to Germany

Ottawa.—Did Daniel D. Hennick, living in Logan, Ont., in 1910, offer the Canadian government gun patents of his own invention, and on no action being taken, did he sell them to the Imperial German government, is the information sought in a question before the house from A. L. Deslauriers, member for Champlain. The member also asked if Hennick is about to return to Canada to live.

## Quebec Wants More Revenue

Quebec.—In an effort to find more revenue to foot the city's growing expenditures, the Quebec city council is considering various plans of taxation. It is proposed to levy a 15 per cent tax on all business enterprises and also to pass the property valuation so as to value by a couple of millions the revenues of the administration.

## Regina, Sask.—A survey of Saskatchew

chewan by the provincial government at the request of the National Institution for the Blind reveals there are ninety blind persons in Saskatchewan.

## The "Silken Thread of Sentiment"

binding the Empire should be reinforced by the "golden chains of commerce."

## Strikers Are Released For Treatment

Prisoners Say That Their Worst Hardship Was Uncomfortable Beds

Dublin.—It was officially announced that it is not intended to release all of the hunger strikers in Mount Joy prison until such time as that an order has been issued that they are to be released on parole for periods to be specified in the case of each individual by the prison doctor.

After only four of the prisoners had been removed from Mount Joy prison, the government intervened with the conditions pertaining to the reincarceration of the hunger strikers after hospital treatment.

The prisoners refused the new terms. When a doctor wrote that there would be a refusal of further departure from the prison by the hunger strikers, the lord mayor again visited the vice-regal lodge with a view to having the order rescinded. The lord mayor stated on the return that the prisoners would be released unconditionally.

The prisoners had refused to accept the stipulation on the ground that it was a re-application of the "cat and mouse" policy.

In the case of the prisoners, an attempt at five o'clock in the afternoon is regarded as a complete triumph for the hunger strikers and its ally, the general strike. It became known early that Viscount French had summoned the lord mayor, and that it was then only a question of terms.

It is not definitely known what the terms are, and for some days there may be contradictory statements regarding them. The grade unionists, however, have no doubt which side had won, and immediately called off the general strike, to the great relief of the citizens.

The prison board also received an order that henceforth under the Defence of the Realm Act, prisoners should receive ameliorative treatment from the date of their arrest until their trial for a specific offence.

The visit to Dublin of James Henry Thomas, general secretary of the National Union of Railwaymen and Labor member of parliament for Derby, is regarded as having had some share in the decision for the release of some of the men.

It is said that an attempt was to have been made to bring about a strike in England in support of the Irish cause. Mr. Thomas made a speech from a window of the labor temple, denouncing the action of the hunger strikers.

The absence of military from the streets was conspicuous. There were no tanks or armored cars posted at the jail, and the barbed wire barricades had been removed. The Irish volunteers resumed their maintaining order outside the prison and were implicitly obeyed.

The released prisoners in the Mater Misericordiae hospital say that the prison staff and ordinary officers at Mount Joy were kind in their treatment of them; their worst hardship was uncomfortable beds. They were indignant at two proposals made to them by the authorities, which implied that certain of the men should desert their comrades. Their attitude was "all or none."

## To Eliminate French Language

Orange Delegation Presented Petition To Nova Scotia Council

Halifax.—A delegation from the Grand Orange Lodge appeared before the council of public instruction and presented a petition pointing out that the French language had no official status in Nova Scotia and asking that it be absolutely eliminated, either as a medium of study or instruction in primary grades.

The delegation also expressed its disapproval of the present separate school system.

The council replied that the matter will be considered.

## Russian Train To Open Fire

Washington.—An official statement by the Japanese war office on recent news that a Russian train had been fired upon by Japanese marines, military attaché at the Japanese embassy, who says the Japanese decision to disarm the Russian army and navy at the Siberian port was reached only after the Russian had been fired upon by Japanese marines and patrols, and attacked the Japanese marines supply train.

## Twenty-Nine Wounded

Lisbon.—Twenty-nine persons were wounded when a bomb exploded in a crowd during a demonstration here in a protest against the high cost of foodstuffs. Two syndicate workers were arrested. During the demonstration cabinet ministers made speeches in response to the acclamations of the crowd.

## Bonar Law Says No Change In Irish Policy

Suggests United States Try Canadian Plan

Of Having An Investigation Before A Strike Is Permitted

Boston.—In a speech delivered at a luncheon here, Major-General Wood dealt with the strike situation. Referring to the Canadian plan of "having an investigation before a strike is permitted," he said: "In this way, Canada has built up a sound public opinion. We have not built up any public opinion here. We do not get the facts concerning strikes. The coal strike in Kansas, for instance, was a strike for longer working hours. The men were allowed to work only eighteen hours a week because there were no cars to move the coal and no place to store the coal, and they could not live on eighteen hours' work a week. That happens to have been the inside fact in that strike, yet nobody knew anything about it. The steel strike was something quite different, and so with the coal strike in West Virginia. We want to build up a sound public opinion here. Public opinion rules in this country."

## May Break Relations

Russian Soviet and Poland Unable To Reach Agreement

Warsaw.—In rejecting further discussions regarding Borisov, on the Bernesina river northeast of Minsk, as the place for the proposed peace conference of Poland and Russia, the Russian Soviet government has sent a wireless message saying it considered the last note of the Poles in the nature of an ultimatum. "We are now standing face to face with the sad eventuality of breaking with Poland owing to the failure to agree upon the locality," the message says.

It reiterates that the Bolsheviks are ready to accept any neutral town and suggests the possibility of holding the peace conference in Paris or London. The message concludes by saying that Russia's only alternative has been to address England, America and France.

It is expected here that the entente note to Poland on the subject will be made public in a few days.

## Fined For Having 22 Beaver Skins

Dawson.—A fine of \$500 was imposed here on Ole Samuelson by Judge MacAuley for having in his possession 22 beaver skins. Samuelson and his partner have arrived here from the Leduc district of White River with about \$25,000 worth of skins, including the beaver, some foxes and 230 martens. It is illegal to kill beaver in this territory.

## Opium Sent As Eggs

Calgary.—Twenty tons of opium, valued at \$2,000 were seized by police here. The opium was sent by Montreal to a local Chinese firm and was packed in egg cases. The police are trying to locate the owner.

## Trailorates To Die

Marsilles.—Louis Boulmie, who, in 1914, denounced to the Germans a French soldier, her neighbor, Michel Amadee, was condemned to death by a court-martial.

Mr. Boulmie was sentenced a half an hour before an order for his pardon was received by the German officer to whose charge he had been remanded.

## Potatoes Taken Off Menu

Seattle.—Potatoes selling here at \$200 a ton, have been put on the boycott of the Seattle Restaurant Association, and will disappear from the menu of the members' establishments until the price has again reached normal level. More than 100 Seattle restaurants are reported in the association.

## Col. Morden Says

Ottawa May Be Capital of Empire

himself a great statesman and master of reconstruction.

Co-operation and combination are being applied in industry in Britain with success. This might apply as well to the politics of the empire at large. If the capital and experience of the motherland could be combined with the resources of the overseas dominions, then there was a bright future in sight for all parts of the empire. The empire would be able to maintain her position as first in the world. Canada had the resources and if they were wisely developed, Col. Morden would not be surprised, he said, to see this Dominion and Ottawa, in many senses at least, the capital of the empire. A good government, which would protect the interests of all classes, was a necessity to induce people to come to Canada, and people were needed as well as capital to develop resources.

## The "Silken Thread of Sentiment"

binding the Empire should be reinforced by the "golden chains of commerce."

Colonel Morden paid a tribute to Lloyd George, who had proved himself a leader enabling Britain to win the war, and who was now showing

## BAR U AND NAMAKA FARM PERCHERONS

The largest stud of the Pure-bred Percherons in the World. The first Percheron breeding farm established in Canada. The only farm in Canada from which British horses have been selected for breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be misled by the cheap stallions brought in by irresponsible dealers and stallion peddlers from the United States, who will try to sell the best individuals of the best breeding raised right here in Alberta by men that have been in the breeding business for 25 years, and expect to remain in the business. We have seventy-four head of Pure-bred Percheron stallions of our own breeding now on hand to select from. You can see their size and shape and if you are not satisfied, we will refund your money. We will give you any assistance in our power. Write for price or name to Calgary, Alberta, and we will send you and show you the stock at any time.—Address—

GEORGE LANE (Desk B), CALGARY, ALBERTA

## FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—A pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE. Let us put you in touch with the Percheron Breeds. Mention this paper when writing. The Canadian Percheron Horsebreeders' Association. William H. Willson, Secretary (Desk A), Calgary, Alberta

## Why Eve Liked Apples

"Alas!" sighed young Callow, "if Eve hadn't been so fond of apples."

"My dear boy," said Cynicus, "Eve wasn't so very fond of apples, but that was the only forbidden fruit."

Instead of sending a friend on a foot's errand, go yourself.

## Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.  
50 cents a box, all dealers, or Edmundson, Bates & Co., Ltd., Toronto.

## Dr. Chase's Ointment

## Got Him to Advertise

Persistence Had His Reward After Many Days

An advertising salesman connected with the Syracuse Post Standard told me recently of his difficulties in persuading owners of little shops in his community to advertise, and he furnished me with a concrete illustration of how persistent he has to be to secure contracts from some of them.

He told me that he had called on one man twice a week for several years. "Of course, he got very well acquainted with this man. He had been a merchant in a small way for over half a century merely making a living and that's all, while he might have made a fortune had he commenced his career by employing advertising in his home-town newspaper."

This advertising salesman called on this merchant on his eighty-fourth birthday and congratulated him, remarking on his splendid physical condition and telling him that instead of looking eighty-four he didn't look a day over sixty-five.

This pleased the old gentleman so much that he said to the advertising salesman, "Well, you have been trying to get me to advertise for a great many years, and I am going to you, I will advertise by giving you an advertisement." Whereupon he told him to insert a two-inch ad.

Now, the moral of this little story is: Keep at a business man and persuade him to advertise even if he lives to be eighty-four before he starts.

It is never too late to get started on the right track—W. C. Freeman, in Fourth Estate.

## Czechs to Cross Canada

The Canadian Government was asked some days ago by the war office if 50,000 Czech-Slovak troops returning from Siberia to their own newly-formed republic, could be transported across Canada. These troops, after a difficult journey, joined the anti-Bolshevik forces in Siberia and fought there for a considerable period. They are now to return home, and as they cannot cross Russia in doing so, it is proposed that they should be transported across the Pacific to Canada, should travel through Canada to the Atlantic, and so journey to their own country in Europe.

## Minard's Liniment For Sale Everywhere.

His Party  
The Countess of Warwick, who has been adopted as Labor candidate for East Walthamstow, has long been noted for her practical interest in welfare work.

One of her best stories concerns an occasion when she canvassed the humble quarters of a northern town on behalf of a well-known Labor leader, and encountered at the first house she visited a matron of the most determined character. "May I see Mr.?" she asked. "No, you can't," answered the matron decisively. "But I want to know what party he belongs to," said Lady Warwick. "The woman drew up her tall figure," "Well, take a good look at me," she said. "The man party he belongs to."

## Lethbridge's Export Trade

Exports to the value of \$1,695,621.85 was exported in 1919. Cattle formed the biggest portion of these exports, 17,159 head having been shipped to southern ports. These were valued at \$854,512.80. Horses for exhibition and ranching purposes, flour, potatoes, personal effects, and wool comprised the remainder of the export. The total value of the wool exported from Lethbridge in 1919 was \$215,544.95.

## Steer Warships by Wireless

During Experiments Destroyer Was Manoeuvred With Not A Single Man Aboard

The British Admiralty reports considerable progress in recent tests of applying wireless control to vessels and torpedoes. Warships with crews of only a few men are regarded as an early possibility as a result of experiments. The Daily Mail says: "By using heretofore the wireless wizards of our fleet have succeeded in controlling torpedo craft from a distance of some miles. During the experiments a destroyer was manoeuvred by wireless with not a single man aboard. By touching the wheel, a vessel is easily steered by the invisible force. Ships' searchlights were also turned by wireless."

## SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Helped Strongly Recommend Dr. Williams' Pink Pills

There is only one way to build up a run down system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as influenza and rheumatism cause the blood to become thin and the wasting effect of these disorders cannot be combated successfully until the blood is restored to its normal condition.

Fallor, nervousness, indigestion, sleeplessness, headaches, dizzy spells, shortness of breath, palpitation of the heart, these are a few of the symptoms of an anemic bloodless condition. Some of them are not naturally associated with thin blood, but the quickest way to overcome them is to make the blood rich and red.

Dr. Williams' Pink Pills do one thing and do it well. They build up the blood increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great support of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the first sign of improvement is usually a better appetite and better digestion.

Dr. Williams' Pink Pills have been used for years as a blood-making tonic and system builder with such good results that in every community there are many people who are recommending this remedy to their friends and to others who are afflicted.

It is the statement of one person out of thousands who have used Dr. Williams' Pink Pills to their own great advantage. Mrs. A. M. Hemford, N.S. says: "For about two years I was a great sufferer from indigestion, which seemed to catch with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected, that the least exertion would tire me and I slept poorly. I had been doctoring for several months with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow his advice and bought a dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can confidently recommend Dr. Williams' Pink Pills to all similar sufferers."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are an invaluable cure in diseases arising from bad or deficient blood, as rheumatism, neuralgia, the effects of the grip and fever. The pills are guaranteed to be free from opiates or any harmful drug as cannot injure the most delicate system.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Squirrels As Big As Cats

There is no country that can rival North America for the great number of squirrels, both species and subspecies, represented in her fauna. In so far as brilliancy of color and size are concerned, however, says the American Forestry Magazine of Washington, the handsomest and largest of squirrels in the world are found in the Orient and the East Indies, along the coast of Malacca is found a squirrel as big as an ordinary cat. This animal is bright red on the upper part of its body, offset by the most intense black, while all the lower parts are of a clear yellow.

"A smile is cooler in summer and warmer in winter than a frown."

W. N. U. 1312

## Horse Shortage Is Acute

What Are The Prospects of the Draft Horse Business

The pamphlet of the War's farm-er just published, contains some interesting information for horsemen.

Horses from this continent are going to Great Britain. Buyers from France, Belgium and even Japan are over here now looking over the situation. In Germany the farmers are forced to use any animal they may have to do their work. Nearly every European country is dry of horses.

It is reported that as soon as the exchange rate becomes more nearly normal, that these countries will begin to place orders here.

Here is an extract of the Weekly Bulletin of the Department of Trade and Commerce, March 15th, 1920:

"Bristol, England, Feb. 17, 1920.—Investigations have been made into the present market for horses in this district. The position seems to be that as far as light horses and heavy horses with thick, well-feathered legs such as Clydesdales, Shires, etc., are concerned, there is no demand for Canadian horses. Many horses, however, which were imported from Canada for war purposes were disposed of by the government in this country with the result that the heavy horses with clean limbs have become very popular, as it is found that, as compared with the animal with heavily haired legs, which catches so much dirt and grease, they do not require so much cleaning and are quite as suitable for many branches of work. There are therefore good possibilities for the exporting of heavy clean-limbed horses, such as Percherons from Canada.

The prices at present are very high and range on the average from £125 to £250 per horse.

On hearing from a Canadian shipper this office will be glad to put him in touch with a horse dealer who has been in the trade for many years and has customers in various parts of the United Kingdom. He would be prepared to handle the horses and, probably, if necessary, be willing to go or send some one to Canada to select the horses most suitable for this market."

On this continent, what do we see? In the few states of the American Union where formerly a surplus of horses was being produced, they have not been breeding; in fact, many of their mates have not produced a colt in two or three years. They were making more money raising grain and producing meats for the allied countries.

In the United States today there are fewer young horses in proportion to the total than at any time in the history of the country. This means that there is sure to be a scarcity of good young horses suitable for use in 1921, 22, 23 and 24, with a certainty of much higher prices.

Of the 21 million horses now on farms and ranches in the United States, less than five million are of distinct types well calculated to do their particular job in life. This makes it easier for the tractor people to sell their machines, a good cure against a poor horse." Despite this, Prof. W. F. Handchin, chief of the department of farm organization and management, at the University of Illinois, declares that, after seven years' continuous studies on Illinois farms, that mechanical power, even on large farms has not displaced more than 20 per cent. of the horses used.

## 25 MILLIONS!

"Cascarets" is biggest selling Laxative-Cathartic for Liver and Bowels

Twenty-five million boxes of Cascarets were sold last year of Col. Barker's famous laxative. It is a cure for Constipation, Biliousness, Indigestion, Colds, and Sick Headaches. It is a well known fact that, removing the toxins, poisons and sour indigestible waste without gripping or inconvenience. Cascarets regulate by strengthening the bowel muscles, they never weaken or shock the liver like calomel or harsh pills. Cascarets cost so little too.

## Col. Barker Honored

Col. Barker, Wm. G. Barker, V.C., D.S.O., has been awarded a second silver medal by the King of Italy for his wonderful fight in October, 1918, in which he tackled sixty Huns single-handed, and shot down six of them before he was brought down by enemy fire.

"Protector of the air," Col. Barker now holds more decorations than any other living British airman.

## Wantmore Peanut Butter Fudge

Two squares chocolate, two and a half cups granulated sugar, two-thirds cup of milk, one level tablespoon butter, two tablespoons Fowler's Wantmore Peanut Butter, pinch salt. Cook the chocolate, sugar and milk together until in cold water forms a soft ball, then add the peanut butter and salt and beat until thick. Turn into greased pan, and when nearly cold cut into squares. Be sure and use Fowler's Wantmore Peanut Butter, as no other peanut butter will make it as good.

## At the Musicals

Guest.—What a fine touch that must be!  
Host.—I guess I know it; he touched me for a hundred just before you came in.

## AFTER GRIP OR FLU WINTER COLDS—BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what is needed to give you vim, vigor and vitality.

Take the "Discovery" as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N. Y., or branch Laboratory in Bridgeport, Ontario.

SIXTY-FOUR YEARS.—I have taken Dr. Pierce's Golden Medical Discovery for liver trouble, and found it excellent, and would not be without it. I suffered from congestion of the liver about six years ago and I always get it back again. I had a good deal of it, and it cured me. I have also given it to my family for colds and it cured them in a very short time. We must have used about a dozen bottles of the "Discovery."

KITCHENER, Ont.—I had become all run-down, was weak and nervous. My blood was bad. I took the "Golden Medical Discovery" and was completely restored to good health. I am always recommending this medicine to my friends, many of whom have had equally as good results.—Mrs. E. M. KITCHENER, 44 Breithaupt Street.

## Of Local and General Interest

Creston ladies will hold a flower show in the latter part of June.

A good roads convention will be held at Lethbridge on June the 4th.

The business profits tax of Canada amounts to about thirty five million dollars a year.

Mr. Kellough, claims adjuster for the C. P. R., was in, this district the early part of the week.

A little boy at the local school was asked the meaning of "O. R. U." He replied: "One Rolshevi Unrest."

Creston Anglicans extended a call to the Rev. F. Yolland, of Fernie, but the latter declined, to accept it.

A New Jersey judge has officially decided that it is no crime to kiss a girl. But suppose the girl happened to be another man's wife.—Calgary Herald.

About thirty-five thousand automobiles will be in service in the province of Manitoba this year, an increase of approximately six thousand over last year.

We learn that the road from Crow's Nest to the Frank slide is to be gravelled this spring. A friend of ours well remarks: "Gosh, and it certainly needs it!"

Two airmen from Washington flew to Ottawa in four hours and twenty minutes, covering the distance between the two capitals at the rate of 125 miles an hour.

It is reported that a merge between the Nova Scotia and Dominion Steel Companies is under negotiation, and that it will be consummated before the end of June.

Mr. Doncott, who had been summing around here during the latter part of the winter and spent considerable other than financial interest in this district, returned to Macleod on Saturday night last.

The order-in-council prohibiting discharged soldiers from wearing their military overcoats and tunics has been cancelled, and all returned men can wear their overcoats, etc., without being in danger of arrest.

A kennel is being established in Newfoundland for the breeding of thorough Newfoundland dogs. A male dog has been imported from Yorkshire, where the animals are bred from pure stock, and a female will be brought in of the same breed.

It is estimated that sixty per cent. of Sunday school collection money finds its way to the cash register of the candy and ice-cream stalls. Seems that the only way to divert this current would be for Sunday school teachers to adopt story telling or poison in candy, etc.

The marriage of Benjamin Francis Wallace, son of S. F. Wallace, of Fernie, and employee in the office of The Echo at Pincher Creek, to Miss Isabella Black Campbell, took place at Victoria, B. C., on April 3rd. They, being both deaf and dumb, attended the same school in Winnipeg. They will reside at Pincher Creek.

It is to the credit of the Alberta government that no new subdivision may be registered at a land titles office until the plan has been sanctioned by the utilities board. During the past ten years many millions of dollars have been squandered by people at home and abroad on real estate wild catting, and many men and women are today paying taxes on lots that never should have been sold as lots, but should be considered as farm lands. The old saying: "A new fool is born every minute" holds good today and this new law will protect the coming generation by removing the temptation.

A restaurant is the who picks his teeth on an empty stomach.

Chicago banks are lending a hundred millions this year to assist home builders.

The only opportunity some fellows seek is one that will enable them to get by without having to work.

The man who is unable to live within his income must live without it.

Chinese Free Masons are erecting a hotel at Lethbridge at a cost of \$8,000.

Within the last two or three months three hotels have been opened at Merritt, British Columbia.

Matrimony is very unlike the penitentiary. You are sentenced for life, but get released for bad behavior.

Women are more truthful than men, but occasionally you meet a woman who says she doesn't want to get married.

It takes a herd of 3500 cows, giving over seven million quarts a year, to supply the United States in Chicago.

Superintendent Pennyfather was in the Pass last week in connection with changes in staff of the Royal Canadian Mounted Police in this district.

Forty six death sentences were commuted by the Ottawa department of justice in the last four years, forty of whom are now serving life sentences.

Miss Rhoda McLaren, who has taken a school north west of Macleod, was one of the most successful graduates at the recent normal school exams at Calgary.

Sergeant Major Mayr is stationed at Blairmore in charge of local detachments of the R. C. M. P., in place of Sergeant Grant who has been transferred to another point.

Miss Joyce Peasey was found guilty of uttering forged cheques at Calgary and was sentenced to fifteen months imprisonment. Her mother was acquitted on a similar charge.

The German highways commission is at work on a plan for the taxation of automobiles by weight of occupants in the family of the owner, weight of the car and daily mileage.

Freddie Raynor, a former well-known figure around The Pass, who has lately been domiciled in other Alberta coal fields, was in this district last week organizing for the U. M. W. of A.

Jenkins was sitting down to breakfast one morning, when he was astounded to see in the paper an announcement of his own death. He rang up friend Smith at once. "Hallo, Smith!" he said, "have you seen the announcement of my death in the paper?" "Yes," replied Smith: "where are you speaking from?"

Charges of wilful murder against Premier Lloyd George were brought in the verdict of the jury into the inquest over the death of Mayor MacCurtain, of the city of Cork, Ireland, who was assassinated last month. The verdict charges Viscount French, lord lieutenant of Ireland; Ian MacPherson and several police inspectors with murder.

An exchange claims that the oldest joke in the world is the one about the teacher trying to explain to her class the parable of the tares. "Now, she concluded, do you know anyone who is like the wicked person, who sowed the tares?" "I do," exclaimed a small boy. "Who is it?" asked the teacher. "My Mother," the boy replied. "She sows all my tares."

H. G. Benson left last night for a brief visit to his home in Eastern Ontario.

A splendidly toned piano for sale at a snap. Apply to The Enterprise.

G. G. McCollom and family left this morning for Vancouver, where they will in future reside.

Furnished Bedrooms for Rent by month. Apply to Mrs. Iberg, 815 1/2 Avenue, Blairmore.

Mrs. James Callan and children have returned to Bellevue from a three month visit to the coast.

A drunk appeared before Magistrate Morrison at Coleman on Monday afternoon and paid a fine.

Canada has 1650 newspapers and magazines, including the Calgary Eye Opener and O. B. U. Bulletin.

David Jackson, father of Mrs. E. Atkinson, of the department of public works, died at Grimby, Ontario.

Irene Hutton was caught by a fall of coal in Bellevue mine on Friday last, sustaining rather serious injuries.

All but those who stayed at home were at the station this morning to bid farewell to Michel Rose and family.

A mother stepped between a young couple and the preacher yesterday to protest against the marriage of her daughter.

Make Your Appointment Early  
All work will be finished in Blairmore

Foreigners, who are not satisfied with working conditions in the land of their adoption, are doing picket duty in Blairmore to if possible prevent English-speaking and Canadian-born from working and producing.

Entries for the Canadian Rockies auto tour are reported to be more than satisfactory, and a still further increase is looked for when the weather is settled. Every town along the line in Saskatchewan and Alberta has been heard from and will be represented by one or more cars.

At the next meeting of The Pass Bootleggers' Association, the subject of debate will be "Procurer." This is a live one in the minds of every non-drinker today, but is very easily solved by the wets. Last meeting's debate on "Ways and Means" proved very interesting and beyond all doubt that there are more ways of procuring than means to procure at the present time.

Word has been received by Mr. A. M. Morrison at Coleman from Mr. Alinworth, of the provincial public works department, stating that work of a permanent nature will be done on the road between the Frank Slide and Crow's Nest, to commence as soon as an experienced foreman, now at Medicine Hat, is available. The money to be spent by the province here is a part of the Dominion grant to the province for such work. Men and materials for the work will be on the ground within the next week or so.

Poison put out for gophers killed a number of valuable dogs in the Erickson district.

Since the price of paper advanced, not a local paper is seen without a paper collar.

Tenders are called for the purchase of \$14,000 debentures of Bellevue School District 1380.

It is reported that Lord Flench has placed his resignation as lord lieutenant of Ireland in the hands of the government.

A score of persons were killed and many injured in storage when swept several counties in northwest Arkansas on Sunday night last.

We understand that at the last meeting of the Pass Bootleggers' Association, a member was tried and fined for "being a bootlegger."

Haddad Bros report one of the ugliest days in their history at Bellevue on Saturday last, due to a large extent to money well spent in poster advertising.

About a week ago a big fat woman was found sleeping in a bath tub of cold water in a local hotel. Prohibition was said to have been directly responsible.

Bellevue is to receive a grant from the Church Forward Movement funds for the establishment of a community welfare institution to cost over ten thousand dollars.

The Fraser Paper Co., Ltd., with a capitalization of \$5,000,000, will establish a paper mill at Perth, New Brunswick. It is estimated that the total outlay for the mill when ready for operation will exceed \$15,000,000.

I read where a prominent doctor explains that wearing tight shoes will affect a girl's brains.

I cannot agree with the gentlemen's views.

For girls that have brains never purchase tight shoes.

Getting out of town the past twenty four hours were noticed a number of notables, including Michel Rose and his family, Geo. G. McCollom and his family, H. G. Benson and his family, and a tin-horn gambler named Harry Nash.

Frank H. Horn and his son, H. S. Horn, and G. Gibson, of Vancouver, publishers of the British Columbia Gazetteer and Directory, were in The Pass this week securing data for a similar work to be published this year by them for Alberta.

An eminent New York surgeon was shot dead on Sunday evening last while taking up collection in a New York Episcopal church. The murderer was arrested and proved to be one Thomas W. Shelly, a printer, formerly of Calgary. Shelly had a mania for sermons and shooting in church.

Horn, at Blairmore, on Monday evening, April the 19th, to the workers of this district, a brand new union, fathered by Fred Allott, who is assisted in his official capacity as president by George Patterson, vice president; L. Thorpe, treasurer; E. C. Lewis, secretary; and good, sound and industrious committeemen. All are doing well.

The following lineup failed to consummate the marriage of a young couple yesterday: The bride to be, the bride's mother, the bride's sister, the groom-to-be, the doctor, the license vendor, the parson, the local proprietor, a school teacher, a blind-piper, a stool pidgeon, a lawyer, the porter, the cook, the commercial traveller and the domestic science lecturer.

The town council and school board are to be commended for the manner in which they have settled down to a fair and square revision of the assessment of the town and district. Besides saving the fee usually paid an assessor, it is expected, and one can rest assured, that a fair deal will be handed to all ratepayers. They have been in session nightly for nearly two weeks and expect to complete the work next week, after which assessment notices will be sent out.

L. H. Putnam was a Calgary visitor on Tuesday and Wednesday.

A dance will be given in the pool hall at Frank on Monday night next.

A court tax official is seen in people in Lethbridge district to make out their returns.

A meeting of the local G. W. A. will be held in the club hall on Sunday afternoon at 2:30.

Specimens of a giant ooniche with a radial spread of three feet have been taken from Pacific waters.

The residence property of Frank Coleman at Lethbridge has been purchased by Dr. Lovering for a sum of \$12,000.

Michel Rose and family left here this morning for Vancouver, where they will reside. They made a good money thousands of dollars through oil gaging since the province of Alberta went dry.

The play, "The Minister's Bride," will be staged at the Workers' Hall, Bellevue, on Tuesday night next, and in all likelihood at the Coleman opera house on the night of Wednesday, May the 5th.

We understand that the women of Coleman are enthusiastic over the formation of a branch of the Women's Institute in that town, and that Mrs. Melvor, convener and organizer, has been asked to take the necessary steps.

The anniversary services at the Institutional church Coleman, on Sunday next, will be addressed by Rev. J. T. Ferguson, D. D. of Calgary, who will also address a Sunday school rally in the afternoon. On Monday evening a concert and supper will be held, supper to be served from 5 to 7. At 8 o'clock a lecture will be delivered by Dr. Ferguson.

The completion of a spur from the Greenhill mine of the West Canadian Collieries, connecting with the C.P.R. line at McLaren's Mill, will greatly facilitate the handling of coal shipments from Greenhill mine. Now shipments for east or west can be made up on the West Canadian spur, ready to be picked up at the east or west junction without any shunting.

Last week we referred to an auto with seven passengers, tumbling down an embankment at Wanele Hill, B. C., and the occupants escaping with slight injuries. Since the accident happened, however, the driver of the car, Warren Mingo, has died from injuries. Mingo was 35 years of age and a native of River John, N. S. He was a prominent Oddfellow.

A fatal accident occurred at No. 3 east mine at Michel on Saturday afternoon, when Louis Nagy, an employee of the Crow's Nest Pass Coal Co., was caught in a cave-in and died as a result of injuries three hours after death. He leaves a widow and seven small children, the eldest being nine years. A week previous, two other miners were caught in a cave-in in No. 8 mine at the same place, sustaining broken legs.

A 20x30 foot addition, two-stories, is being made to the Oddfellows' temple at Bellevue, which will give a lodge room 30x60 and large ante-rooms, kitchens, toilets, etc., making one of the finest lodge assembly rooms in Southern Alberta. The ground floor of the building, has been leased to Mr. Graham, of Coleman, who we understand will conduct a "pool room and bowling alley and modern barber shop."

A large number of ladies of The Pass towns attended the lectures delivered at the local Masonic hall on the afternoons of Monday, Tuesday and Wednesday by Misses McBeath and Morkin of the Domestic Science branch of the Provincial department of agriculture. The lectures proved interesting and beneficial, and great credit is due Mr. Campbell, member for this provincial riding, for having been instrumental in having these lectures delivered here.

## In The District Court of The District of Macleod

In the Matter of the Estate of JOSEPH KLIS, late of the Village of Coleman, in the Province of Alberta, Miner, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named JOSEPH KLIS, who died on the 18th day of August, A.D. 1918, are required to file with Mike Klis at Coleman, Alberta, by the 10th day of May, A.D. 1920, a full statement duly verified of their claims, or of any security held by them, and after that date the Administrator will distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

J. E. BROCKTOR,  
District Passenger Agent, Calgary

The O. B. U's are now turning their attentions to the Chinese element of our Canadian population, and pretty soon the motto of that organization will be "O. P. U." Greeks and Jews also stand a big chance of being gathered into the folds. Up to the present the bootleggers have been barred as undesirable.
